#### RELAPSE FOR WILSON, NAVY'S INJURED PLAYER

Special to The Washington Herald. Annapolis, Md., Oct. 27.-Following a severe sinking spell which he suffered to-day, the condition of Midshipman Earl D. Wilson, quarter back of the Navy football team, who was injured about the spine in the game against Villanova College ten days ago, is worse to-night than it has been for the last three days. The relapse caused the attending surgeons to issue the following bulletin:

"Condition is worse. Should pulmonary complications occur, his death would be a matter of only a few hours."

The sinking spell caused unfavorable change in the paralytic conditions, and, in addition, the patient was in a semi-come tose state off and on, and was not as cheerful as usual. There has been no extension of the hypostatic pneumonia which devel oped in the right lung on Friday. This was deemed a bad sign. The surgeons tonight report the young man's condition as extremely grave, though there is still the ray of hope that he may linger some time.
